

CTEK XS-7000

7A Hands off Smart Charging

Part No: 15000521

Fully automatic charging for 12V batteries, allowing you to connect the charger to your vehicle and let XS-7000 do all the work for you. No modes to select, simply connect and charge!

Hands off Charging

XS-7000 offers a truly unique charging experience and is perfect for people without much 12V battery maintenance experience or knowledge. XS-7000 has no modes to set, simply connect the charger to your 12V battery and let XS-7000 do the rest!

Automatic Diagnosis

After connecting a 12V battery, the XS-7000 will automatically detect it and determine if it meets specific criteria. The XS-7000 will assess whether the battery can accept a charge and, once charged, if it can retain that charge.

Quick Overview

- ✓ Fully Automatic Charging
- ✓ Automatic Battery Diagnosis
- ✓ 7 Step Charging
- ✓ CTEK CONNECT Compatible
- ✓ LED Charge Status Display
- ✓ Connect & Forget Charging
- ✓ Durable Design

7 Step Charging

Fitted with CTEK's 7 step charging technology, XS-7000 will not only charge your battery, but it will also maintain it helping to boost battery health and increase longevity. This process includes, battery de-sulphation, charging and a float mode allowing you to keep the battery maintained over an extended period of time.

Built with Safety in Mind

XS-7000 isn't your standard battery charger. Fitted with a host of safety features, such as reverse polarity protection, short circuit protection and more you can rest easy knowing your battery is in safe hands.

Durable Design

Are you charging in a less-than-ideal location? The XS-7000 is equipped with IP65 protection, enabling it to function effectively even in challenging environments. This charger is completely dustproof and offers protection against light water ingress, ensuring reliable performance regardless of the conditions.

Adaptable Charging

Require a specific solution? MXS 5 is compatible with CTEK's CONNECT accessory range. This includes cigarette plugs, eyelet connections, cable extensions and more. You can also opt for the indicator range to instantly see battery charge levels.
