

Rotronics WheelPRO 70

Effortless Wheel Lifting

An innovative wheel lifter, engineered to lift and support wheels up to 70KG.

No Power or Compressed Air Required

No need to rely on air compressors and pipes being dragged across your workshop. WheelPRO 70 can easily raise and lower wheels using only the included wrench.

Support for Wheels up to 70KG

Eliminate wheel weighing and worrying about if the lifter can raise the wheel. WheelPRO 70 can lift and raise wheels weighing up to 70KG.

Easy to Manoeuvre

Fitted with 4 sturdy castor wheels, wheel alignment is quick and effortless. The integrated brakes allow you to keep the lifter in place whilst removing/fitting the wheel and you can easily transport the wheel with minimal effort.
